

Virginia Garcia is a catalyst for change in health care delivery

The Mission of the Virginia Garcia Memorial Health Center is to provide high quality, comprehensive, and culturally appropriate primary health care to the communities of Washington and Yamhill counties with a special emphasis on migrant and seasonal farmworkers and others with barriers to receiving health care.

Our vision is simple. We work to ensure that all people in our service area have access to timely, high-quality health services, enabling them to achieve the best possible health outcome.

What is a Patient Advisory Council?

The Virginia Garcia Patient Advisory Council (PAC) was created as a way for VG patients to give thoughtful input about access to health care, VG programs and issues that keep our patients from being healthy.

What does a PAC member do?

- ★ Commits to attend a monthly PAC meeting
- ★ Provides open and honest feedback on current VG programs
- ★ Acts as an advocate for family-centered health care in your community
- ★ Collaborates with staff on possible changes that will impact the patient experience in our clinic
- ★ Gains a better understanding of the healthcare system and meaningful ways to improve it
