

Our Health Care Symposium will be held virtually on April 8, 2021. The COVID Truth: Examining racial, social and health injustice will focus on the rising importance of understanding and addressing racial, economic and social disparities in the age of COVID-19. This year's symposium will feature a panel of diverse leaders from our community to discuss the inequities that have been exposed and amplified over the past 12 months, but also look to the future and the work that must be done. This event typically draws many people from diverse sectors, including representatives from major health systems, universities, government, nonprofits and other businesses.

For more information on sponsorship opportunities contact Stefanny Caballero at 503-352-8632 or scaballero@vgmhc.org
